SUMMARY

Motivated Artificial Intelligence and Data Science student passionate about building AI-powered applications, intelligent automation systems, and modern full stack web platforms. Experienced in developing scalable web applications, AI-driven tools, data extraction systems, and cybersecurity -based solutions.

EXPERIENCE

Web Development Intern — Happy Visitors Dot Com
Kolhapur, Maharashtra

- Worked on web development tasks and assisted in developing responsive and user-friendly web applications.
- Contributed to website enhancement and frontend functionality improvements.

PROJECTS

AI Web Security Scanner

Developed an AI-based web security scanning platform for identifying website vulnerabilities and improving cybersecurity monitoring.

AI Web Extraction Platform

Designed a platform for extracting and processing web-based data efficiently using AI-driven automation techniques.

AI Hawk

Built an AI-powered application focused on intelligent monitoring and data analysis functionalities.
